

LUMIXELL

BA500+BA501 Atom

Unique Magnetic Self-locking Coupling

- + **Unique Magnetic Self-Locking Coupling**
Bike light can be a fast couple and secured by a unique self-locking magnetic coupling design- free from being stolen and secure to ride along bumpy roads.
- + **Special Wide Vision + Spot Optical Design**
Provide more than 180° of visibility + Spot beam to be seen far away
- + **Auto Brake Sensor (BA500)**
- + **Daytime Running Visible Flash**
- + **Type-C Rechargeable 400 mAh**
- + **Safety Zone Ground Beam Design**
360° beam to the ground to define a good safety zone to be seen in all directions.
- + **Water Resist IPX4**

BA673Red+BA674White Proton

Compact Bike Light Set with charging case

Introducing the Lumixell Proton - A powerful and versatile bike light set that charges on the go and fits in your pocket! Much like how AirPods cases charge AirPods, the Lumixell Proton has a compact case that charges each light on the go. The best part? Both lights and charger are the size of a bluetooth earbuds case. Each set comes with both front and taillight, alongside multiple mounting accessories for different mounting options. You can attach each proton by using our magnetic coupling mounting strap, which securely snaps and locks each light onto your bike. All your needs in one small pocketable case, ensuring a safe journey down any road.

- + **Unique Magnetic Self-locking Coupling Strap** compatible with front handlebar / back seat post / saddle bag / saddle mount / bike helmet.
- + **Ultra Slim Spot and Wide Vision Optical Design** for wide visibility range
- + **3 LED with different light modes** (including Daytime Running Light) cater to your visibility needs both day and night.
- + **Charge by either charging case or via Type-C cable.**
- + **Water Resist IPX4**
